DOE

Jack Griffin

OSD

Richard Perle (co-chairman)

JCS

RADM Robert Austin

NSC

Sydell Gold

25X1

The interdepartmental group discussed this issue of whether to support the establishment of a CD Working Group which would discuss nuclear testing issues. It was decided that the Working Group should meet the following day to prepare a decision document to assist the IG in reaching a conclusion on this issue. The document should address the following options:

1. Supporting a CD group with a broad mandate;
2. Supporting a CD group with a more tightly constrained mandate (e.g., on verification and compliance); and
3. Continuing to oppose the establishment of any CD group on these issues.
